"Trains have played a major role in American music, from Country and Western to Blues, Rock and Roll and Jazz, particularly the Big Band sound. Trains tell the stories and smokestack exhaust, big iron driving wheels, steam whistles, and clack of the tracks help write the music itself. Plane songs tell similar stories but their sounds have far less influence on rhythm or melody. Tonight the similarities and differences are showcased in a selection of wonderful songs performed by the City Rhythm Big Band."

THE PRICE OF MUSICIANS

A guy called the Musicians' Hall to get a quote on a 6-piece wedding band. The rep says, "Off the top of my head, about \$2000."

The guy says, "What? For music?"

The rep responds, "I'll tell you what. Call the Plumbers' Union and ask for six plumbers to work from 6 'til midnight on a Saturday night. Whatever they charge, we'll work for half."
