"Good news, Mr. Burgess. We've successfully removed the tune that was stuck in your head."

What is jazz? No single definition can suffice. Jazz is all around us.

Jazz is when you're about to turn into what you thought was an empty parking space, only to find that a Mini Cooper is already there.

Jazz is when your cat walks across your computer keyboard and somehow blows up the screen-view to three hundred per cent, and you can't figure out how to shrink it back.
